EDUCATION

University of Chicago Ph.D. in Statistics	<i>Sep 2026 – Present</i>
Seoul National University (SNU) B.S. in Statistics - Overall GPA: 4.07/4.3 - Statistics major GPA: 4.09/4.3 - Left for Mandatory Military Service May 2022 - Feb 2024	<i>Mar 2020 – Aug 2026</i>
Seoul Science High School (SSHS) Overall GPA: 4.20/4.3	<i>Mar 2017 – Feb 2020</i>

RESEARCH INTERESTS

- Nonparametric Inference, Time Series Analysis, High-dimensional Statistics
- Transfer Learning, AI Agents, Neural Networks and Deep Learning

PUBLICATIONS

[1] J. Park, *Transfer learning and locally linear regression for locally stationary time series*, Preprint, [arXiv:2511.12948](https://arxiv.org/abs/2511.12948)

RESEARCH EXPERIENCE

Nonparametric Inference Lab , Department of Statistics, SNU <i>Advisor Byeong U. Park</i>	<i>Aug 2024 – Jul 2026</i>
Transfer Learning and Locally Linear Regression for Locally Stationary Time Series [1] - Established <i>uniform convergence rates for multivariate locally linear estimators under strong mixing</i> and derived an <i>error expansion</i> decomposing stochastic variation, smoothing bias, and local stationarity remainder terms. - Developed a <i>bias corrected transfer estimator</i> linking sparsely observed targets to dense auxiliary domains through smooth discrepancy functions. - Proved a <i>compatibility threshold</i> determined by cross domain curvature that characterizes when transfer improves risk and when heterogeneity creates irreducible bias. - Validated theoretical results via simulations and a global fuel price study, demonstrating stable MSE reduction under moderate structural differences.	<i>– Jan 2026</i>
Variable Selection Algorithm Development, Multi-Agent AutoGen System - Designed a multi agent AutoGen framework for automated feature construction and variable selection with iterative critique and refinement. - Sponsored by BISTelligence Co., Ltd. (Private Sector Funded Project)	
Time Series and Predictive Analytics Lab , SNU <i>Advisor Sangyeol Lee</i>	<i>Mar 2024 – Jul 2024</i>
Population and Housing Price Forecasting in Gyeonggi Province - Modeled population–housing dynamics via VAR and ARIMA across three cities and evaluated rolling horizon forecasts. - Identified delayed demographic transmission into housing price growth and heterogeneous city specific responses. - Presented results with forecasting evaluation. [Slides]	

SELECTED AWARDS & HONORS

SCHOLARSHIPS/FELLOWSHIPS:

Presidential Science Scholarship , Korea Student Aid Foundation	<i>(8 semesters) 2020 – 2025</i>
Full tuition plus 5 million KRW per year awarded by the Korean government to distinguished undergraduates	

SELECTED AWARDS:

College Mathematics Competition, *Korean Mathematical Society*

SILVER PRIZE, 2024

SILVER PRIZE, 2023

SILVER PRIZE, 2021

Outstanding Tutor in Statistics Program, *SNU Faculty of Liberal Education*

SPRING, 2025

FALL, 2024

Korean Mathematical Olympiad: Silver Medal, *Korean Mathematics Society*

SILVER PRIZE, 2018

SILVER PRIZE, 2016

TALKS & SEMINARS

ACADEMIC TALKS:

Nonparametric Inference Lab Group Seminar (2025)

- o Transfer Learning and Nonparametric Regression for Locally Stationary Time Series [\[Slides\]](#) Oct 2025

Statistical Learning Seminar (with Prof. Hee-Seok Oh)

- o Paper Review: Adaptivity of Deep ReLU Networks in Besov & Mixed Besov Spaces (Suzuki, 2019) [\[Slides\]](#) Nov 2025
- o High-Dimensional Classification & Nearest Shrunk Centroids [\[Slides\]](#) Aug 2025
- o Association Rules and Cluster Analysis [\[Slides\]](#) Jun 2025
- o Projection Pursuit Regression, Neural Networks & Bayesian Deep Learning [\[Slides\]](#) May 2025
- o SCAD, Adaptive Lasso, Oracle Properties & Generalized Additive Models [\[Slides\]](#) May 2025
- o The Elements of Statistical Learning Review focusing on Linear Methods for Regression [\[Slides\]](#) Mar 2025

Peer Group Seminar

- o Paper Review: Bayesian Deep Learning and a Probabilistic Perspective of Generalization (Wilson & Izmailov, 2022) [\[Slides\]](#) Apr 2024

TEACHING EXPERIENCES

Spring Peer Tutoring, Seoul National University

MAR. 2025 - JUN. 2025

- o Tutored three undergraduate senior students in **Regression Analysis and Lab** course
- o Total 26+ hours during the semester (12 weeks)
- o Selected as an Outstanding Tutor in the official peer tutoring program

Fall Peer Tutoring, Seoul National University

SEP. 2024 - DEC. 2024

- o Tutored five undergraduate sophomore students in **Statistics** course
- o Total 26+ hours during the semester (12 weeks)
- o Selected as an Outstanding Tutor in the official peer tutoring program

Spring Peer Tutoring, Seoul National University

MAR. 2024 - JUN. 2024

- o Tutored six undergraduate junior students in **Concepts and Applications in Probability** course
- o Total 26+ hours during the semester (12 weeks)

EXTRACURRICULAR ACTIVITIES

SNU in Washington, D.C. Program, *Office of International Affairs, SNU*

Jan 2025

- o Participated in a two week academic immersion program in Washington D.C., visiting institutions including the Supreme Court, U.S. Capitol, East West Center, KEL, Heritage Foundation, CSIS, CRS, World Bank, Brookings Institution, Arnold and Porter, KITA, CFR, Korea Foundation, and the Korean Embassy.
- o Conducted Student Team Research on U.S. immigration policy and public opinion, integrating institutional briefings with independent analysis.

Volunteer program at Samsung Hope School, *GIV (Global Inter-culturing & Volunteering), SNU*

Aug 2024

- o Participated in a one-week educational volunteer program at Samsung Hope School in Thai Nguyen, Vietnam.

Dream Camp Mentoring Program, *Dream Consultant*

Jan 2022

- o Served as a student mentor in a 3 day on site mentoring program at Sangji Girls' High School in Wonju helping students explore academic goals and future career paths through group workshops and one to one guidance.

SNU-UMN Culture Exchange Program, *Office of International Affairs, SNU*

Fall 2021

- o Participated in a semester long 1:1 online cultural and language exchange with a University of Minnesota student completing four bilingual sessions via Zoom on Korean daily life and English communication.
